

/home/martyna/Pulpit/calka/prj/integral.h

```
graph BT; A["/home/martyna/Pulpit/calka/prj/integral.h"] --> B["/home/martyna/Pulpit/calka/prj/integral.cpp"]; A --> C["/home/martyna/Pulpit/calka/prj/main.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a gray rectangular box containing the header file path: /home/martyna/Pulpit/calka/prj/integral.h. Below this box are two white rectangular boxes. The left box contains the source file path: /home/martyna/Pulpit/calka/prj/integral.cpp. The right box contains the source file path: /home/martyna/Pulpit/calka/prj/main.cpp. Two blue arrows point from the bottom of the left and right boxes towards the bottom of the top box, indicating that both source files include the header file.

/home/martyna/Pulpit/calka/prj/integral.cpp

/home/martyna/Pulpit/calka/prj/main.cpp
